Our Story

Starting with our flagship Luxe Lager, the portfolio of Luxe Brewery has grown to a wide-ranging collection of beers, always keeping an eye to traditional brewing techniques, even as Brewmaster Melissa McLaughlin and her team seek to push the boundaries of beer. It's now easy to find a smooth Luxe Lager, hoppy Lost & Found IPA or Sweet & Salty Stout in your favorite watering holes. Each season brings beloved seasonals like our new Slope Strangers Ale!

Founded in 2014, Luxe Brewery has been a pioneer in craft brewing. After visiting countless breweries and beer festivals around the country, Melissa noticed that many of them were lacking personality and creativity. Luxe aims to stand out from the competition and inspire its drinker!
